

# Web Developer Assignment

- We need to design the below given webpage ([bit.ly/webdeveloperassignment](https://bit.ly/webdeveloperassignment)) using only **React JS**
- Must match with the Above UI and need to adapt the **Mobile Version**
- You can use colors, Images, and Font sizes of your choice. But the layout and looks are taken into consideration
- You can use any number of libraries you wish and can use either Java Script or Typescript upon your wish
- It's Completely static Page

**Assignment UI:** [bit.ly/webdeveloperassignment](https://bit.ly/webdeveloperassignment)

## Assignment Submission:

- You can share the assignment link by uploading the completed assignment to any of the free deployment services like Vercel, Firebase, Netlify GitHub Pages, Heroku, Surge Render, and GitLab Pages

- Once the Assignment is done, fill out this form:

<https://forms.gle/yP1qXdy9Uuyqa3kx7>

**Note: Your assignment will not be considered If you don't submit the deployment link**
